College of Engineering, Construction and Living Sciences
Bachelor of Information Technology
IN721: Mobile Application Development
Level 7, Credits 15
Presentation

Assessment Overview

In this assessment, you will present a mobile-related topic to the course lecturer. The information presented must be in a **README.md** file. Also, you need to provide a code example to accompany the README.md file. The main purpose of this assessment is to demonstrate your ability to identify and effectively articulate an intermediate/advanced topic in **Android**.

Learning Outcomes

At the successful completion of this course, learners will be able to:

1. Implement & publish complete, non-trivial, industry-standard mobile applications following sound architectural & code-quality standards.

2. Identify relevant use cases for a mobile computing scenario & incorporate them into an effective user experience design.

3. Follow industry standard software engineering practice in the design of mobile applications.

Assessment Table

Assessment Activity	Weighting	Learning Outcomes	Assessment Grading Scheme	Completion Requirements
Practicals	10%	2, 3	CRA	Cumulative
Project	70%	1, 2, 3	CRA	Cumulative
Presentation	20%	2, 3	CRA	Cumulative

Conditions of Assessment

You will complete this assessment during your learner managed time, however, there will be availability during the teaching sessions to discuss the requirements & your progress of this assessment. This assessment will need to be completed by **Thursday, 18 November 2021**.

Pass Criteria

This assessment is criterion-referenced (CRA) with a cumulative pass mark of **50%** over all assessments in **IN721: Mobile Application Development**.

Authenticity

All parts of your submitted assessment **must** be completely your work & any references **must** be cited appropriately including, externally-sourced graphic elements. Provide your references in a **README.md** file. All media **must** be royalty free (or legally purchased) for educational use. Failure to do this will result in a mark of **zero** for this assessment.

Policy on Submissions, Extensions, Resubmissions & Resits

The school's process concerning submissions, extensions, resubmissions & resits complies with **Otago Polytechnic** policies. Learners can view policies on the **Otago Polytechnic** website located at https://www.op.ac.nz/about-us/governance-and-management/policies.

Submissions

You **must** submit all presentation files via **GitHub Classroom**. Here is the URL to the repository you will use for your submission – https://classroom.github.com/a/EQ7POFAY. The latest presentation files in the **main** branch will be used to mark against the **Documentation** criterion. Partial marks **are not** given for functionality in other branches. Late submissions will incur a **10% penalty per day**, rolling over at **5:00 PM**.

Extensions

Familiarise yourself with the assessment due date. If you need an extension, contact the course lecturer before the due date. If you require more than a week's extension, a medical certificate or support letter from your manager may be needed.

Resubmissions

Learners may be requested to resubmit an assessment following a rework of part/s of the original assessment. Resubmissions are to be completed within a negotiable short time frame & usually **must** be completed within the timing of the course to which the assessment relates. Resubmissions will be available to learners who have made a genuine attempt at the first assessment opportunity & achieved a **D grade (40-49%)**. The maximum grade awarded for resubmission will be **C-**.

Resits

Resits & reassessments **are not** applicable in **IN721: Mobile Application Development**.

Instructions

A list of topics are available in the **Microsoft Teams** course channel, under the **Files** tab. The file is called **presentation-topics.docx**.

Documentation - Learning Outcomes 2, 3 (50%)

- Documentation must contain the following sections:

  - Overview - a brief description of what the topic is.

  - Dependencies - it may include the operating system, name, version number, etc.

  - Code example - a description of each code snippet in relation to the topic. It means you **only** have to describe the essential files.

  - References - the information in your documentation is referenced using **APA 7th edition**.

    * **Resource:** https://studentservices.op.ac.nz/learning-support/citingandreferencing

- Use of **Markdown**, i.e., bold text, code blocks, etc.

Presentation 2, 3 (50%)

- Present your documentation, i.e., **README.md** to the course lecturer, or record your presentation. If you wish to record your presentation, you must:

  - Upload your presentation to your OP student OneDrive.

  - Provide a link to your presentation in your documentation.

- Answer the following:

  - Describe how would you implement it into your travelling **Project**?
